A combination of legal and ordinary customs and forms of government as informed Europe. This article is about the existence of feudalism in modern, Western European countries in forms of feudalism. For feudalism in other countries, as well as in parts of Europe, see Feudalism.

Feudalism was a political, economic, and social system that operated in Europe from the 6th to the 16th centuries. It was characterized by the existence of lords and vassals, who were bound to each other by a relationship of service and loyalty. The term "feudalism" is derived from the Latin word "feudum," which means "estate." Feudalism was a complex system that evolved over time and took different forms in different regions of Europe.

The concept of feudalism is often associated with the Middle Ages, but it is important to note that feudalism was not limited to this period. Feudalism was also a feature of early medieval and Roman times. The concept of feudalism as it is understood today, however, is primarily associated with the Middle Ages and the period preceding it, the Early Middle Ages.

Feudalism has been the subject of much scholarly debate and discussion. Many historians have studied feudalism and its role in shaping European history. The concept of feudalism has been analyzed from various perspectives, including political, social, economic, and cultural.
